SFC Certification Renewal Form v2.0

Organization Information

Name of Organization applied for certification:	Proxio Systems AB
Name of the certified tool / program:	Proxio Emissions
Organization type:	☑Commercial / ☐Non-for-profit

Financial Information (for invoicing purposes)

Bill address:	Johannefredsgatan 4, 431 53 Mölndal, Sweden
Contact Name:	Mattias Hägerstrand
Contact E-mail:	info@proxiosystems.com
IBAN/SWIFT code	
Bank Account:	
VAT:	

SFC Certification Renewal Questions

Are there any changes in your methodological approach that might have significant impact on the calculation outputs?	☐Yes ☑No
Have you added data input types to the certified tool/program?	☐Yes ☑No
Have you added transport modes to the certified tool/program?	☐Yes ☑No

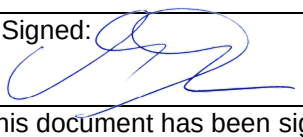

Note: If there are any changes in methodological approach, input data types or mode coverage, please send any updated documentation that reflects the changes.

How did your organization react to the published updates made to the GLEC Framework in the past 12 months? Please fill out your answer below.

We have added updated versions of the GLEC emission factors and started implementing HUB activities in our platform.

Terms and Conditions

Have you read the Terms of Reference (ToR) for GLEC Certified Partners?	☑YES ☐NO
I herewith agree with the attached Terms of Reference.	☑YES ☐NO
I understand that SFC will issue an invoice (nominated in EUR) at the signing date of this GLEC Certification Renewal Form. A 30 days payment condition will apply to the invoice. If my organisation requires, we will inform SFC of the Purchase Order number.	☑YES ☐NO
Do you agree to align with the principles of the GHG Protocol Corporate Value Chain Accounting Standard in terms of full well-to-wheel, GHG (CO_2e) emission reporting, identifying scope 1, 2 and 3 breakdown of emissions when requested by your members / clients?	☑YES ☐NO

On behalf of Proxio Systems AB I hereby apply to SFC for certification of conformance with the GLEC Framework	Signed: 	Date: 2025-09-05

The renewal period of 12 months will start on the date this document has been signed and send back to SFC and the technical review has been completed.

Smart Freight Centre Certified Partner

Terms of Reference

Introduction

The SFC certification scheme is an ecosystem of emission calculation tool providers, Green Freight Programs and Transport Management/Logistics Tool Providers who can provide a methodology which conforms to ISO 14083 and applies the GLEC Framework, built into their solutions to help businesses establish a consistent way of recording and reporting GHG emissions. These Terms of Reference outline what we at Smart Freight Centre expect from Certified Partners, and what they can expect from us in return.

Key Definitions and Abbreviations

GLEC FW: Global Logistics Emission Council Framework is the harmonized methodological reference point to determine GHG emissions in the end-to-end supply chain of a shipper.

GLEC: The Global Logistics Emissions Council (GLEC) is a growing voluntary partnership of more than 90 companies, industry associations, programs, experts and other organizations. The mission of GLEC as an industry-led partnership is to drive emission reduction and enhance efficiency across global logistics supply chains.

GHG: Greenhouse gases as defined by the UNFCCC.

SFC: Stichting Smart Freight Centre, an Amsterdam based non-for-profit organization that helps Multinationals, and their logistics service providers reduce GHG emissions through the development of guidelines and support materials, advocacy for aligned policy, supporting implementation and recognizing them for good performance.

GCR: GLEC Certification Review – a review by SFC Experts that will confirm whether an organization understands and properly conforms to ISO 14083 and applies the GLEC FW in their approach and/or tools. For initial GCRs, the time this process takes depends very much on the speed of supplying data to SFC, the maturity level of the tool and implementing required changes in the Organization.

Certification:

CP: Certified Partner – The organization certified by SFC to provide business services and user of the GLEC FW.

CP Logo: Visual marks provided to the CP which serve to recognize the CP's status, for use on the CP's website and in marketing materials.

Partnership Period: The duration of the CP's certified status.

Expectation of GLEC Framework Certified Organizations

By signing the GLEC FW certification application form, the CP confirms that it:

a. Will pay the applicable fees to SFC;

b. Will confirm in writing to SFC the use of the GLEC FW. SFC is entitled to mention CP as GLEC FW user on its website. This provision shall only apply if CP is a Logistics Service Provider or a Shipper and has requested certification for its internal carbon calculation tool;

c. Will use the GLEC FW in good faith, and in particular, will not seek to alter or adapt the criteria used to assess the determination of CO2e emissions;

d. Ensures that it will review all direct communications shared with the CP by SFC, and at SFC 's request will complete a short update test or be trained and assessed for updates in the GLEC FW as deemed necessary (this will happen only if the GLEC FW is updated significantly) to warrant that the expertise and application of the CP is aligned with the most recent version of the GLEC FW;

e. Will link directly to the SFC website and use the CP Logo wherever the CP refers to its certification status in digital form (e.g. on its website);

f. Will become a GLEC affiliate according to the GLEC partnership scheme once the certification process is concluded and AP's logo will be displayed in the GLEC partnership webpage.

g. Accepts that certification is designed to recognize the AP's technical understanding and application of the GLEC FW. The CP will not express or imply, verbally or in any written form, that SFC in any way guarantees the quality or delivery of the AP's product(s) or service(s);

h. Will abide the GLEC by its spirit and not use the partnership to sell the AP's services directly to other partners or otherwise engage in direct marketing activities.

i. Will provide support and cooperation to SFC to increase the adoption of the GLEC FW in its customer base by a.o. informing the customer base of the certification and directing those customers interested to hear more about the GLEC FW to SFC in line with the communication guidelines as attached in annex A to this ToR.

If the CP is deemed by SFC to be in breach of any of these requirements its CP status will be reviewed and may result in immediate termination of its CP status, with no refund of fees already paid.

1. Duration of Partnership Period

1.1. The Partnership Period commences when the CP has:

a. successfully passed the GCR;
b. paid the initial CP certification fee to SFC according to article 5 of these Terms of Reference

1.2. The Partnership Period lasts for three years, after which the benefits as an CP cease unless the CP chooses to renew the Partnership Period according to article 2 of these Terms of Reference.

SFC will notify the CP of the exact commencement date of the Partnership Period

1.3. The CP is under no obligation to continue its CP Partnership, and is free to terminate the partnership at any time during the Partnership Period. Should the CP decide to terminate the partnership, the CP will inform SFC in writing (including email) and remove any mention of its CP status from its website and all marketing materials immediately. The CP's right to use the CP Logo in any media will cease when its partnership ends.

1.4. In the event of early termination, membership fees already paid are non-refundable, and partnership as affiliate of the GLEC immediately ends.

2. Certification Renewal

2.1. Assuming the CP has abided by these Terms of Reference, the CP will be invited to renew its CP status one month before the end of the Partnership Period.

2.2. Upon renewal, the CP will be asked to submit a short self-certification form summarizing any GLEC FW related work the CP has undertaken during the prior Partnership Period and confirming that the CP has kept up to date with any GLEC FW developments.

2.3. The CP will be expected to resubmit for the GCR every three years at a minimum, even if the GCR has not been updated during that time.

2.4. These Terms of Reference will be reviewed on regular basis. If any material changes are made, the CP will be notified of them at least one month before the end of the Partnership period.

3. Benefits of Certification

For the duration of the Partnership Period, the CP will receive the following benefits:

a. individual description as an "Certified Partner" and the right to use the CP Logos on its website and in any other marketing materials;

b. access to the GLEC Partnership, including the opportunity to discuss ideas and experiences with other GLEC partners, to learn from other experts, and to help shape the development of the GLEC FW;

c. SFC wants every CP to be successful in their use of the GLEC FW, and from time to time may be willing to co-promote the work of the CP to SFC's network of business partners if, at SFC's sole discretion, it is deemed to offer significant new application opportunities for SFC's network.

4. Smart Freight Centre Logos

4.1. In using CP Logo, the CP agrees to:

a. ensure that all online uses of the SFC Logos (for example on your website) link directly to the SFC website;

b. not alter the form (colors, elements, propositions and orientation) of the CP Logo;

c. abide by the CP communication guidelines as attached in Annex A.

d. use the CP Logo only in a manner that accurately represents their certification status.

4.2 Ownership & License for Use:

e. All intellectual property rights over and in respect of the CP Logo are owned by SFC or its subsidiaries. The CP does not acquire any intellectual property rights over or in respect of the CP Logo.

f. SFC grants the CP a limited, non-exclusive, non-transferable, revocable license to use the CP Logo solely for the purpose of promoting its certified status, subject to compliance with these Terms of Reference and SFC's branding guidelines.

g. The CP will not file or claim any intellectual property rights anywhere in the world with respect to the CP Logo.

4.3 Enforcement & Penalties of Misuse:

a. If the CP misuses the CP Logo, SFC may require immediate removal of the logo from all CP materials.

b. In cases of repeated misuse, SFC may suspend or terminate the certification.

c. SFC reserves the right to take legal action against fraudulent or deceptive uses of the CP Logo.

5. Certified Partner Fee

All prices are excluding VAT

The initial CP certification fee is determined by the type and size of the organization:

a. Not-for-profit organization EUR 10,000

b. Commercial organization (business entity involved in providing calculation tool or performing calculations) with annual turnover of:

i.	1 million Euro or less	EUR 10,000
ii.	1-3 million Euro	EUR 15,000
iii.	More than 3 million Euro	EUR 25,000

The CP renewal fee is EUR 3,000 per annum for all organizations.

Please note: where applicable VAT will be charged separately on the amount of the certification fee and on the renewal.

*If an alternative fee structure has been agreed the fees in the contract take precedence.

6. Use of Data

6.1. SFC will only use the data the CP provides to enable its certification

6.2. After termination of certification, SFC is entitled to retain CP Data for a period of 3 years for compliance, audit, and record-keeping purposes. After this period, SFC may delete the data unless required by law to retain it.

7. Acceptance of these Terms of Reference

7.1. These Terms of Reference constitute a legally binding agreement between the parties and define their respective obligations and expectations.

7.2. These Terms of Reference will be construed by and governed in accordance with the laws of the Netherlands. Any disputes will be settled exclusively by the competent Dutch court in Amsterdam (subject to appeal and cassation).

7.3. the CP will indemnify, defend and hold harmless SFC and any of its subsidiaries and their respective officers, agents, employees and subcontractors against al liabilities, costs, expenses, damages and losses (including without limitation reasonable legal and other professional fees and expenses) suffered or incurred by SFC out of or in connection with the supply of his product(s) and service(s) to third-parties in relation to the GLEC FW

Annex A communication guidelines

How to use these communication guidelines?

The objective of this section is to detail a consistent and comprehensive approach to the joint communication efforts of Smart Freight Centre and the CP. It should be shared with any designers, agencies, copywriters, marketing and communication guidelines involved with the certified party's marketing activities.

- When communicating about Smart Freight Centre, please align text with the About us section of our website and follow our SFC style guide where relevant.
- Key information about certification can be found here.
- We encourage the CP to continue to display the SFC certification certificate on your website.
- We advise the CP not to use the following words to describe your certification: only, best, leading, better, etc. For example, "… only certified calculation tool for road freight."
- Check the short description of your certified tool/program (25 words maximum) and your logo is up-to-date on our SFC certified partners page and inform SFC if any changes are required.
- Continue to inform your key audiences about the certification; including employees, customers, partners, and other stakeholders.
- Encourage your colleagues to speak about your certification at conferences and in other venues.
